Environmental Management

Mathieu & Mitchell Ltd is currently developing its Environmental Policy Statement which will detail the company strategy identified that minimises the impact of our activities on the environment. The Company is committed to ensuring compliance with legal and other requirements that relate to environmental legislation. Currently:-

Risk Assessments and Method Statements are applied to each phase of a project and address environmental issues as they apply.

All general waste is currently disposed of via the services of a licensed Skip Operator

Waste volume is reduced by evaluating operations for efficiency and waste reduction e.g. Stock control and logging of expiry dates on raw materials assists in minimising the amount of material requiring disposal.

Professional qualified personnel are employed to advise on removal of environmental hazards such as lead paint, asbestos and other hazardous materials if identified via the site inspection or during works.
