Health and Safety Policy

Mathieu & Mitchell Ltd operates a Safety and Health policy in compliance with the Safety, Health & Welfare at Work (Construction) Regulations 2006 (SI No. 504 of 2006).

Our Safety Management system incorporates a structured, systematic approach addressing information and advice dissemination, safety inspections and audits and safety training for all staff. The Company employs the services of an external Professional Safety Advisor from 'All in Health And Safety Services Ltd' who carries out inspection and audit functions in accordance with all current legislation guidelines.

The Company ensures compliance with the Safety and Health Plan as it remains a live document for the duration of each project. Each section of a project is subject to specific risk assessments for the task being carried out. Persons carrying out the tasks must comply with the control measures in place or any additional control measures identified specific to the task.

All staff members and subcontractors are issued with a copy of our Safety Statement prior to any works commencing or before any contractor is appointed. The Safety Statement must be signed to confirm that all persons have read our statement and understand its contents. A copy of all subcontractors Safety Statements must be forwarded to us before any works commence.

Mathieu & Mitchell Ltd has a clean record with regard to accidents, injuries and dangerous occurrences on site and has never been prosecuted for any breaches of health and safety legislation.
